

Starter- Tier 14

Joker tier: Playful disturbance

Starter:

Revisiting or inventing a tier. Which tier do you want to revisit or which tier do you feel you have missed/lacked until now? Bring this theme/topic into your collective process. This is your ***joker tier*** and your starter.

Contribution:

Please upload a contribution that is relevant to the tier you revisited or invented for this week to the iCoDaCo app.

The contribution can be in any medium that you deem suitable for what you were exploring. This should be informative of what you were busy with, and graspable for other collectives and individuals to follow.

Please be mindful of the suitability of your format of choice to the iCoDaCo app, as you have been working with before (for example, pdf, mp3 for audio, mp4 for video etc.)

In addition to this, please upload an A4 pdf (maximum 1 page) description about your choice (why you revisited or invented a certain tier), how you worked during the week (what practices and processes you incorporated in the process) and what came up for you.
