

Tier 13 - entry: light/text

Watch the video titled *How Your Face Changes in Different Lighting* on the **YouTube** account **NukeLeo FPV** (the video is 1:51 min)

Link: <https://www.youtube.com/watch?v=6sgpeoWpO9w>

Starter

Offer a dance. Put a lamp next to it. Light it.

Choose a specific constellation of who is dancing, and who is placing the lamp.

Following this, offer the same dance as in the previous step. This time, say a sentence before you start the dance (for example: "this is my dance")

Reflection propositions:

What entry or entry-point to a work/piece does light enable?

What entry or entry-point to a work/piece does text enable?

In what ways are light and text related in a work/piece?

Collective Contribution:

Send an **audio description** of your impression of a significant scene in your imagined upcoming collective work. What role does light and/or text play in this impression?

State which moment from the work is described. For example: the first scene, audience arrival at the location/space...

The audio file should be between **1- 2 min in mp3** and uploaded to the iCoDaCo App. Please use the adequate tags.

Note: This description is not binding, you will of course be able to change it during the creation process, if you choose to do so.

Reminder: ALL collective contributions must be uploaded to the iCoDaCo App by **13:00 Central European Time** on the Friday of the respective residency week.

Please listen to the contributions made by the other collectives prior to the Saturday sharing.

Individual Contribution:

Each artist shall provide a contribution that you find relevant to this tier.

Upload each individual contribution to the iCoDaCo app tagging it as your own contribution with any other relevant tags and information.
