

Repetition as a flexible statement

- Repetition is a pond of possibilities
- because there are stations instead of endpoints
- it's emphatic because negotiable
- it is sustainable because it allows time for change
- it can lead new, further roads by bigger swings
- it is a practice that allows to deepen
- it is a ritual which can give safety
- it is cyclical, which can navigate in time
- it is a rhythm which can give harmony
- it is a pulse which is a sign of life
